## **2021 Annual Conference | Focusing on the Future**

The last two years have been, to say the very least, a challenge. Sometimes it has been very hard to see anything other than the present moment and the issues schools have had to face!

The theme of our conference is very much focused on looking forward and we are delighted that we have a number of speakers who, we are sure, will motivate us all as governors to approach our role with enthusiasm and optimism.

County Councillor Jayne Rear and Elaine Cluet are relatively new to their roles in Lancashire, and we are looking forward to them sharing their ideas for development. Janet Myers is quite recently appointed to the role of Regional Lead for the National Governance Association in the North West and she will be looking at the priorities for Governors post pandemic and beyond.

## 2021 Annual Conference (cont ...)

Our main speaker is Carl Ward. Carl is the Chair of the Foundation for Education Development. Carl is an experienced teacher, school leader and governor and founder of the FED, a national organisation which seeks to influence education planning and policy.

It is an independent and politically neutral education charity which has wide support from all sectors in the world of education. The FED aim is to see a long-term plan for education built on a cross sector and cross-party approach which ensures every learner, no matter their background, receives the best possible education at every stage of their education journey.

We are fortunate to have attracted such excellent speakers – don't miss them!

The presentations will be followed by our AGM. Would you like to join the LASGB executive and help us plan for the future in Lancashire? Please consider putting your name forward!
