## COP 26 – April 2022

- COP 26 was the first large summit where education and environment ministers met to scale up the role of education in tackling climate change.
- DfE publication followed – 'Sustainability & Climate Change Strategy for Education' with its four aims:
  - excellence in education and skills for a changing world
  - net zero
  - resilience to climate change
  - a better environment for future generations

### NGA Overview – June 2022

- **NGA's Greener Governance campaign** aims to ensure that all schools and trusts have a strategy for their contribution to environmental sustainability and to equip governing boards to play their role in overseeing this work.
- They ask every governing board to make the **Greener Governance pledge** to:
  - reduce carbon at their school or trust;
  - put their school's or trust's contribution to environmental sustainability on the agenda;
  - ensure a climate action plan is developed to make this happen.

### NAEE (collaborating with NGA)

- **The National Association of Environmental Education** - is an Incorporated Charitable Organisation that is run by its members and volunteers who care passionately about environmental education and education for sustainable development. They aim to advance environmental education by:
  - facilitating curriculum development through the provision of resources, information and ideas for teachers,
  - providing financial support for pupils to visit outdoor education centres, and
  - collaborating with organisations that have related objectives.
